MEMORANDUM FOR: Deputy Director for Support

F I I E

Training 3-1

SUBJECT : Support CT Program - Status Report

1. The first phase of implementing the new Support CT policy is completed. All Support CT's in Headquarters have been briefed on the new policy and their career service options are shown on the attached table.

2. The 44 OPTS have been appropriately matched with a Support Career Service. The seven DEFERS will be resolved shortly. The 12 OTHERS include five who have just left for field generalist assignments, four who are transferring to other directorates and three who are resigning for doctoral studies or military service.

3. The six Support CT's of the current Support Services CT Course have been matched with Support Career Services; two Logistics, two Finance, and two Personnel. The skills bank approach was responsive both to office requirements and individual preferences.

4. Two SD returnees from the field have been briefed on the new policy; one has opted for Admin and one for Personnel. We are attempting to forecast the likely career service options of the 60 plus SD CT's currently in the field on the basis of grade, job assignments, and FRQ data. We will send you this forecast broken down by fiscal year of expected return. Our tentative judgment is that at least half of these returnees will have the credentials for and will opt for the Admin Service. Over the next two years, we expect matching with a career service may be easier to accomplish than finding appropriate Headquarters jobs for the returnees.

5. FY 69 CT requirements broken down by specific Support Career Services have been given to Personnel and the CT Program. We are preparing a Support Services Career prospectus to assist Personnel and the CT Program to respond to the new policy.
